

Weatherford and Sullivan Wire Rope Team Up for Haiti Mission

Shortly after our June 2011 trip, Haiti Mission, Inc. (HMI) received word that the cable on our drill rig was deteriorating and would need replacement soon. In an effort to find the best price for a drill cable, Weatherford was contacted hoping they could direct us to a supplier of drill cable. The team at Weatherford found us the supplier with the very best price –FREE! Sullivan Wire Rope agreed to donate the drill cable to HMI and Weatherford arranged for it to be shipped to Miami for transport to Haiti.

What a blessing these two companies have been for Haiti Mission, Inc. and especially the people of Haiti who will benefit from clean water.

Sincere thanks to the people at Weatherford and Sullivan Wire Rope for making it happen.
